TROYA

TROYA's CONDOR uncooled thermal sights series for snipers, sharpshooters and marksmen, is fused with a vast amount of operative knowledge. This is accomplished by a close cooperation with active users around the world. With its enhanced optical and operational capabilities, the **CONDOR** series enable detection and engagement of targets for great distances, thus allowing for a clear advantage for its users. Remarkably lightweight and compact, the **CONDOR** thermal sights utilize an uncooled infrared detector, which allows for extremely high-resolution output, translating into a crystal clear image. The sights are highly intuitive and extremely simple to operate.
