Lories are small to medium-sized arboreal parrots characterized by their specialized brush-tipped tongues for feeding on nectar.

TROYA

TROYA's LORY is a thermal imagery monocular. The **LORY**, using its in-housed thermal engine, allows the user to see during nighttime and in low light conditions, and detect warm bodies and objects. The **LORY** is equipped with a single objective lens, and one eyepiece, which enables for comfortable viewing, and is very lightweight and ergonomic.
