HAWKEYE LASER POINTER

TROYA's HAWKEYE is a very lightweight laser pointer and illuminator. The HAWKEYE is offered with an Infra-Red (IR) diode. The HAWKEYE is designed to be compatible with any rugged terrain or difficult scenario its user will face in the field, with very simple, ergonomic and intuitive operational features. The HAWKEYE makes for accurate aiming, target acquisition and marking, ground-to-ground and ground-to-air signalling and much more. The HAWKEYE is fitted for use with standard Night Vision Devices, and standard mounting platforms.

- ⊕ Standard Picatinny Adapter
- ⊕ Operationally Proven
- ⊕ Mil-Std Compliance
- ⊕ Infra-Red (IR) Laser

** Hawks are birds of prey and are widely distributed and vary greatly in size. Four types of colour receptors in the eye give hawks the ability to perceive not only the visible range but also ultraviolet light*

HAWKEYE

LASER POINTER

TECHNICAL SPECIFICATIONS

Laser Type	IR
Power Output – Low High	<0.7 mW 10mW
Wavelength	850+5nm
Laser Class	Class I – Low Class III B – High
Beam Divergence	0.2 mrad
Beam Size (@10m)	Ø5.0mm
Windage and Elevation Adjustment	1 MOA
Working Temperature	-20°C to +50°C
Storage Temperature	-40°C to +72°C
Battery	1 X AA 1.5V
Continuous Working Time	>10 hours
Waterproof	5m
Switch	Off/On/Remote Momentary Switch
Mount	Integrated, low profile Picatinny adaptor, in front of scopes, holographic sights or NV sights

ACCESSORIES INCLUDE

- ◇ Carrying Case
- ◇ Weapon Mount
- ◇ User Manual
- ◇ Cleaning Microfiber Cloth
- ◇ Remote Momentary Switch Cable
- ◇ Lens Cover
