TYTO NIGHT VISION MONOCULAR

TROYA's TYTO is a must-have for any operative whom requires Night Vision capabilities. The TYTO is a Night Vision Monocular (NVM) which, using its in-housed Image Intensifying Tube, allows the user to see during night-time and in low light conditions. The TYTO is equipped with a single objective lens, and one eyepiece, which enables for comfortable viewing.

- ⊕ Fits All 18mm Image Intensifying Tubes
- ⊕ MICH/ PASGT Helmet Compatible
- ⊕ Durable and Rugged Design
- ⊕ Manual Gain Control (optional)
- ⊕ Mil-Std Compliance
- ⊕ Various Accessories

** The genus Tyto includes all barn owls. They are darker on the back than the front and have a divided, heartshaped facial disc.*

TYTO
